

## Leigh Park Street Market August 2010

- Economic Development has been working with Leigh Park businesses and members to increase footfall to the Leigh Park shopping centre.
- One positive action the council can take is to introduce a market which past experience has shown attracts additional local footfall
- We have surveyed all the shops in the area and all fully support the initiative.
- The market started trading on 10 June 2010 on a trial basis, has proved successful thus we seek fully planning permission to continue.
- It has been agreed that the market vehicles will be parked in the HBC car park behind Park Parade
- The market will produce a revenue stream to HBC
- The market will sell a wide range of products as agreed with the Economic Development Team Leader.
- **This initiative has the full support of ward members, Portfolio holder for Regeneration, Heads of Service for Regeneration & Technical Services**

### Operational notes

- No vehicle movements between the hours of 0900 – 1600 (except in emergencies and then marshalled off)
- No vehicles to enter site before 0630
- Site must be cleared by 1700
- Bray's Associates to provide £5m public liability insurance for the markets (Bray's already operate the Havant and Waterlooville markets on behalf of the council)
- All food providers must be registered with Environmental Health
- ALL waste to be taken off site by stall holders
- Site must be kept clean and left as found.
- No radios or music to be played without permission from HBC
- The site area has been used as a market place in previous years
- Strict conditions regarding litter and noise.
