Dear David,

Re : Motor Traders Combined Insurance.

I refer to our telephone conversation earlier this morning and as promised write to confirm the following. I took over as your insurance broker in June 1999, at which time your business insurance was with the Norwich Union Insurance Company. As part of the Insurance contract I had to carry out a full survey of both your premises at Freezers boat yard and Manor Farm in Manor Road, Hayling Island. I can confirm that buildings at Manor Farm were used for the storage of Motor Vehicles.

I have carried out reviews of your insurances every 12 months since this time and confirm the use of the buildings has never changed.

I hope that this letter clarifies the situation, however should any further clarification be required please do not hesitate to give me a call or send me an email at

Kind regards

Regional Development Manager
