

To Chairman of the HBC Planning Committee

cc Mr Alan Mac, MP

I am writing to record my objection to the above proposed alterations and additions to No. 26 Beacon Square, Emsworth PO10 7HU.

This house commands a prime location with gardens running alongside a footpath to the path which runs along the shoreline of west Emsworth. The path is part of the Solent way and a section of the Sussex Border Path. The Solent way is a long distance coastal route passing through Emsworth Hatbour. The Ambling Path describes it as "connecting two of the most picture postcard harbours in Hampshire".APP/25/00405 no. 26 Beacon Square, Emsworth

The plans are to extend this already sizeable house by adding extensions to both east and West elevations, almost doubling it in length. They also propose to "alter the roof" Details of which are not specified.

These additions will seriously impact the view of the house, both from the footpath and, perhaps more importantly from the sea which attracts hundreds of sailors, surfers and swimmers all year round and especially in the summer.

Emsworth Harbour is in an AONB and also is part of Chichester Harbour Conservancy; this is in addition to the King Charles II England Coast Path mentioned above. This Application should be very seriously considered before the Planning Committee.

Yours
