

SOFT LANDSCAPING PLAN

**Garage extension, revised fenestration, render to elevations, removal of chimney and removal of pedestrian gate entrance to south elevation.
and additional landscaping alterations**

**to
34 Manor Close, Havant. PO9 1BD**

App Ref: APP/25/00327

Introduction

Proposed soft landscaping to eastern elevation to provide screening along Manor Close and retain the verdant character of Manor Close.

This following list is a soft landscaping proposal to be read in conjunction with plan 3357_P_04. Plants are mainly chosen to provide evergreen screening along the eastern elevation to a height of approx. 1.5 - 2.5m, providing a diversity of screening along this elevation to ensure continual screening throughout the season. A selection of planting is chosen to provide interest, diversity and colour throughout the season.

S.1. – Photinia Red Robin

S.2 – Bay Laurel

S.3 – Mountain Laurel

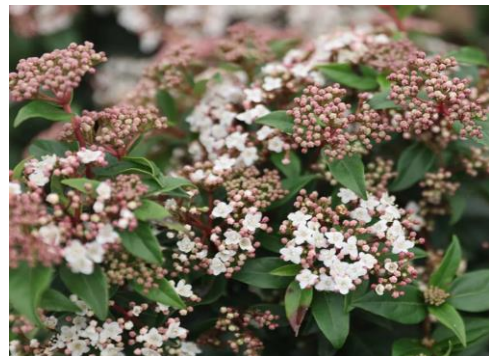

and

Osmathus - Burkwoodii

S.4 – Viburnum tinus

and

Choisia - ternata

S.5 – Hydrangea arborescens 'Annabelle

and

Selection of Rose bushes

C.1 – Trachelospermum jasminoides

T.1 - Magnolia liliiflora

(2.5m spread – 3m max height)
