

Dated 28TH June

WORTHINGTON
COUNCIL

02 JUL 2015

RECEIVED

Dear Ms Wells

[REDACTED] informed that a notice has been placed on 2 lamp posts regarding proposed development to 33 Middlepark Way

[REDACTED] only 3 people recieved letters about this, i find this very unorgaised and not very informative, i once recieved a letter regarding work to someones property that was not even near me or would have caused me concern.

I understand i have missed the deadline of 25TH June, [REDACTED]

I very strongly do not accept this planning and i know a lot of people agree, [REDACTED]

These people have been living in garden for 3 years, constantly falling out with people and causing upset and problems.

Have had numerous bonfires which was not just normal grass rubbish but also nothing was done about that either

What they are asking permission for, they have been doing illegally for 3 years 'ilegely' No council tax paid - TV license - water rates, not acceptable as we all have to struggle to live.

PTO

There has been someone living in shed
for almost 2 years, [REDACTED]

[REDACTED], why, [REDACTED]
at times loud music in garden, swearing,
which we do not want to listen to.

[REDACTED] also there.

We do not want this in our neighbourhood
we have all lived here years, paid our
mortgages and want to have peace
Also, where is he getting his water from
for showers and toilets?

He will have a septic tank? or throw
it down drain?

I feel if you give him permission for this
they are also going to build a log cabin
which they probably have not mentioned?
But will do it once you give them acceptance
Please think about this as these people
are annoying to neighbours, [REDACTED]

[REDACTED], they have just moved
in garden and taken over without any
regard or concern to neighbours and also
that means one caravan will have to back
up against someones garden fence?

Please put yourselves in our position.
we want peace and quiet, no swearing
loud music or bonfire

Thankyou

[REDACTED]
