

HAVANT BOROUGH COUNCIL

9 MAY 2024

RECEIVED

Planning Proposal Development at Emsworth House Close

APP/24/00245

APP/24/00232

To the planning officer/s

The stress and disturbance caused by the construction of these two properties may exacerbate existing health conditions and compromise the overall quality of life for residents in Emsworth House Close.

The current parking situation in Emsworth House Close is already strained, with insufficient parking for existing residents.

A construction site will only impede access for emergency services who are frequently called to Emsworth House Close.

Many of the residents have impaired mobility and any construction within the road is likely to increase the risks of trips and falls.

For these reasons I object to both proposed developments.

Yours sincerely
