

To The Planning Officer

Re: Planning Proposal for two developments at Emsworth House Close

APP/24/00245

APP/24/00232

To Whom it may concern

I have two major concerns regarding the proposed development of both dwellings in the close.

Firstly, the close houses many older people and as such they are often in need of emergency services. This is challenging already due to the narrow street and number of vehicles who already park in the road. This would be a big concern during the proposed construction and also following completion should the application be successful.

A number of residents of the close also use mobility scooters, numerous vehicles and construction workers will compromise the safety of these residents.

Currently the parking situation is already a significant issue, and it stands to worsen not only during the proposed construction phase but also following completion if the planning proposal is approved.

Due to both of these issues I strongly object to the development of this piece of land.

Yours sincerely
