**The Town and Country Planning (Development Management Procedure) (England) Order
2015
Refusal of Planning Permission**

Application Number: APP/25/00500

Site Address: 12 Awbridge Road, Havant, PO9 3SN

Proposal: Single storey rear extension

Further to your application received on 10 June 2025 Havant Borough Council, as Local Planning Authority, **Refuses Planning Permission** for the above proposal.

The reasons for the Council's decision to refuse planning permission are:

- 1 The rear extension by virtue of its depth and bulk in proximity to the shared boundary between Nos 12 and 10 Awbridge Road would result in an overbearing impact on the rear garden of No.10 Awbridge Road and its rear ground floor fenestration, and would result in an unpleasant and oppressive sense of enclosure that would be harmful to the amenities of the occupiers of this neighbouring property. The proposal would conflict with Policy CS16 of the Havant Borough Core Strategy (2011), the Havant Borough Design Guide Supplementary Planning Document 2011 and the National Planning Policy Framework.
- 2 Insufficient information has been submitted to determine the presence and impact on protected species and as such the proposal fails to safeguard biodiversity. The proposal would therefore be contrary to Paragraph 187 of the National Planning Policy Framework (December 2024), Circular 06/2005, Natural England Standing Advice and the Conservation of Habitats and Species Regulations 2017.

In coming to its decision the Council considered plans and other documents submitted with regard to your application and the relevant policies of the Havant Borough Local Plan and other planning policy documents including the National Planning Policy Framework.

- If an enforcement notice is served relating to the same or substantially the same land and development as in your application and if you want to appeal against your local planning authority's decision on your application, then you must do so within 28 days of the date of service of the enforcement notice, or within 6 months [12 weeks in the case of a householder appeal] of the date of this notice, whichever period expires earlier.

- The Secretary of State can allow a longer period for giving notice of an appeal but will not normally be prepared to use this power unless there are special circumstances which excuse the delay in giving notice of appeal.
- The Secretary of State need not consider an appeal if it seems to the Secretary of State that the local planning authority could not have granted planning permission for the proposed development or could not have granted it without the conditions they imposed, having regard to the statutory requirements, to the provisions of any development order and to any directions given under a development order.

If you intend to submit an appeal that you would like examined by inquiry, then you must notify the Local Planning Authority and Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. [Further details are on GOV.UK.](#)

Further information for applications relating to new vehicular access/dropped kerbs

If your application includes a dropped kerb, please visit Hampshire County Council's guidance here:

<https://www.hants.gov.uk/transport/parking/droppedkerbs>

This page provides essential information for residents, explaining that planning permission and dropped kerb consent are two separate requirements. While planning permission may be granted by the local planning authority, dropped kerb consent must still be obtained from Hampshire County Council, as they are responsible for managing access to the public highway.

It is particularly important to highlight that for applications involving classified roads (A, B, and C roads), applicants must provide evidence of planning permission as part of their dropped kerb application. This ensures that all necessary safety, traffic, and infrastructure considerations are properly addressed.

Southern Gas advisory note

In June 2021 SGN issued a comprehensive advisory note

There are a number of risks created by built over gas mains and services; these are:

- Pipework loading - pipes are at risk from loads applied by the new structure and are more susceptible to interference damage.
- Gas entry into buildings - pipework proximity increases risk of gas entry in buildings. Leaks arising from previous external pipework able to track directly into main building from unsealed entry.
- Occupier safety - lack or no fire resistance of pipework, fittings, or meter installation. Means of escape could be impeded by an enclosed meter.

Please note therefore, if you plan to dig, or carry out building work to a property, site, or public highway within our gas network, you must:

1. Check your proposals against the information held at <https://www.linesearchbeforeudig.co.uk/> to assess any risk associated with your development and
2. Contact our Plant Protection team to let them know. Plant location enquiries must be made via email, but you can phone us with general plant protection queries. See our contact details below:

Phone: 0800 912 1722 / Email: plantlocation@sgn.co.uk

In the event of an overbuild on our gas network, the pipework must be altered, you may be temporarily disconnected, and your insurance may be invalidated.

Further information on safe digging practices can be found here:

- Our free Damage Prevention e-Learning only takes 10-15 minutes to complete and highlights the importance of working safely near gas pipelines, giving clear guidance on what to do and who to contact before starting any work
