

To the planning officer

Re: Planning Proposal developments at Emsworth House Close

APP/24/00245

APP/24/00232

Firstly, I would like to ask why there are two planning applications by the same developer for this plot of land?

Secondly, has anyone visited Emsworth House Close to evaluate the issues we already have with parking and access for emergency vehicles?

The fire engine already has to reverse back down the road when they are called out because there is nowhere to turn round.

People in mobility scooters have difficulty accessing the dropped kerbs. If the development goes ahead, builders and lorries are only going to worsen the issues that as residents, we experience every day.

Due to these issues and the disruption and noise a development will cause I would like to strongly object to the development of this piece of land.
