

APP/24/00245 and APP/24/00232 - Planning Proposal Development at Emsworth House Close

For the attention of the planning officers.

I am writing to you to inform you of my objection to the planning applications in Emsworth House Close.

There is not much green space within the close already and yet this development will reduce this significantly.

The properties in Emsworth House Close, as I am sure you are aware are [REDACTED] with this in mind I have concerns for the safety of myself and the other residents of the close, [REDACTED] At present the emergency services experience difficulties gaining access to the properties because the road is narrow and the number of cars that already park in the road, a construction site will only make this worse.

Residents and visitors/carers already struggle to park in the road, by adding a dropped kerb and reducing parking on the street for the development we will have even more difficulties.

[REDACTED]
