

Planning Statement – Updated

The proposed location is now on the same side of the road as the campsite, and would be on the land of the campsite on the grass, rather than the original position opposite. This location remains appropriate, as it will not impose on or detract from the landscape.

The sign will be mounted on a post at the new location. It will be arrow-shaped and display "The Oven Campsite" in blue writing.

The visibility of the sign will not be intrusive and it will remain in keeping with the character of the surrounding area. The sign will comply with all relevant planning regulations and policies.
