

Dear Sirs, Further to my telephone conversation with Mr. A. Winter at your office on 01-09-2025, I am enclosing a photograph of the oak tree in relation to our boundary with Jade Court. The distance of our boundary to the side of the tree is 2•64 m and the tree diameter is 560 cams.

I would say I am happy for the proposed works to prune the tree back to in line with our boundary fence which is shown on the right of the photograph.

Yours faithfully

Peter Norman
