22 September 2025

Dear Sir/Madam

Application Number APP/21/01351

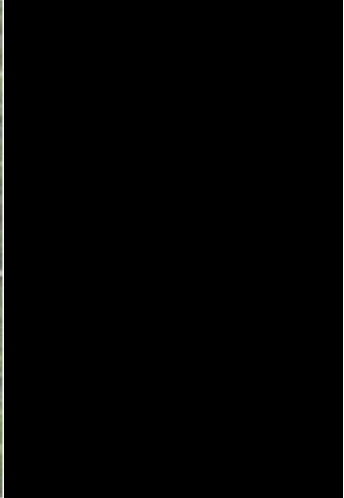

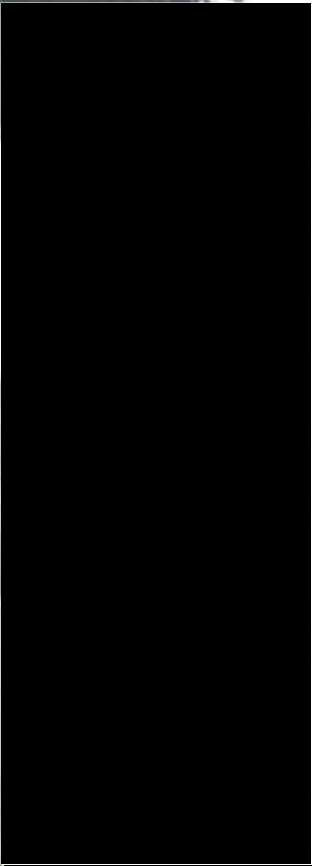

We wish to object most strongly to the above proposal

This is a narrow entrance

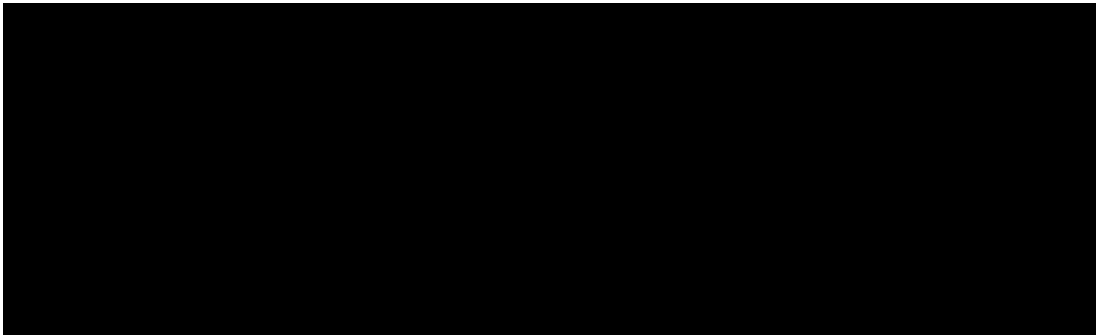

We have attached photos to show the ridiculous situation. Also the fact that the field drains

We have already listed our objections in general, re overcrowding and taxing the infrastructure of the island. Two Buzzards live in this field which I believe are protected. What about them and the rest of the wild life?

Yours faithfully
