Dear Sir/Madam

Application Number: APP/21/01351 Saltmarsh Lane

We wish to object to the above proposed planning on the grounds noted below.

- Access to the island is restricted due to the bridge and narrow one lane road. This will be made worse with another 100 vehicles.
- Emergency vehicles already have difficulty gaining access
- One delivery or breakdown can result in a 2 or 3 mile tailback
- The Island is already overloaded. The schools, doctors, dentists all have trouble coping.
- Where will the sewage go? It already has to be pumped out as the system is overloaded.
- [REDACTED] if there are more properties it will cause serious flooding. Saltmarsh gives you a hint!
- Access to the site is not adequate. The entry from West Lane is narrow and cars are parked all along the road. The proposed entry to the site is too narrow for two vehicles to pass.
- There will be massive loss of open space, country side and natural habitats. Deer, Birds, Bats to name only a few.

Yours faithfully

[REDACTED]
