

Dear Sir,

Re Proposed Development 78 Durley Avenue PO88UZ

I understand that planning permission is being reviewed for the above development. I am concerned that the narrow drive to the site is on a very dangerous corner and this revised development has increased the number of authorised parking places to 7, therefore more vehicles using this entrance. Any building work being carried out in this location, can create severe problems for traffic using busy Durley Avenue.

I have not received any notice of the alterations planned, but feel that in considering the development and the location the views of individuals who use Durley Avenue daily and know this area, should be taken into account.

Yours faithfully
