CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

Good morning,

Please find the revised wording for the work that we would like to carry out.

T1- Apple- Located to the rear of the property adjacent to the property, the tree is leaning significantly towards the neighbouring property. Tree to be reduced on the Northwest side by 2m, leaving a spread of 4m, and to take 2m of height off the crown, leaving a crown height of 4m. This is to help create a natural appearance and limiting the weight over the wall and property. Apple tree to be reduced to reduce hazard over property boundaries and neighbouring property.

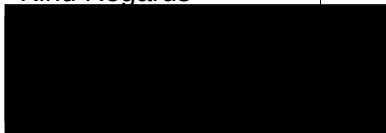

T2- Fig- Located beneath the Apple tree, tree to be reduced in height by 1m, leaving a crown height of 2m. The fig tree has outgrown the area it was planted in and will be maintained at a shorter height with a natural shape.

T3- Juniper- Located to the rear of the property, the tree has multiple limbs that are falling away from the weight, we recommend the tree is trimmed back to reduce weight, and then wired up to help maintain the shape. To achieve this, we will remove 50cm from the top leaving a height of 6m and lightly reduce by 30cm on all sides leaving a width of 1.5m. The tree is to be trimmed up and wired to maintain stability and to keep a natural shape.

T4- Conifer- Located to the rear of the property, the tree has multiple limbs that are falling away from the weight, we recommend the tree is trimmed back to reduce weight, and then wired up to help maintain the shape. This is to be achieved by removing 50cm from the top leaving a height of 6m and lightly reduce by 30cm on all sides leaving a width of 1.5m. The tree is to be trimmed up and wired to maintain stability and to keep a natural shape.

Tree 5 and 6 on the sketch map are a laurel and Portuguese Laurel. Laurel bush to be reduced in height by 50cm to a height of 4m. The Portuguese Laurel bush will also be reduced in height by 50cm to a height of 4m.

Kind Regards

Arborists by Nature
