Dear Ms Sheath

We received your letter yesterday (15th October) and dated 9th October 2024, relating to the planning permission for [REDACTED]  
[REDACTED] 2 Charlesworth Gardens and are writing in support of the change of use.

They apparently intend to do, [REDACTED] have the front garden and driveway block paved, giving space for three to four cars off road parking. Also during normal working hours the two cul-de-sacs are virtually empty of cars, so combining these two factors, parking will not be a problem.

Further, we feel we should support the younger generation who are trying to make a living, and are in favour of planning permission being granted.
