Dear Sir or Madam

Your ref: APP/21/01071 – Land south of Lower Road and west of Old Manor Farm, Havant. 43 dwellings with access from Lower Road and associated landscaping, open space and allotments, and all other matters reserved.

Thank you for your letter dated 7 April 2022 advising me that you have received further details.

I am writing to object again to this proposal mainly due to highway safety and lay out you only have to visit the present new build site to see the chaos it is causing. Not only is there no pavement for pedestrians on part of the present access road, but the extra traffic not only of lorries delivering to site is amazing. I have seen many times men having to walk in front of the lorries to stop and turn back oncoming cars as the present access road is not wide enough. I am sure you are well aware of this. I understand that the present bus stops on either side of Bedhampton Road at the base of Bedhampton Hill are being moved causing further disruption to us local residents, cost to us Council Tax payers all no doubt because of these unnecessary new builds.

Yours faithfully
