

Certificate of lawfulness application for continual use in excess of 10 years at Copse Meadow Lodge Copse lane Hayling Island PO110QB

Planning history

98/52113/001 Boundary wall gates and new vehicular access
Withdrawn application

04/52113/015 Outdoor storage of construction materials vehicles and machinery
Refused

06/52113/015 C Change of use from barn to storage and distribution with extension
Refused to provide toilet facilities. Use of land for storage & supply of logs.
Boat and Caravan storage

22/01193 Retrospective application for siting of 37 storage containers
Withdrawn and 5 residential caravans.

Site History

Mr Bond purchased the site in September 1989. (see previously submitted CRB1) at which point, as per his previously submitted statement two occupied caravans were on the Copse meadow lodge site, he then added a third and these were recorded by a local Architect as shown in CRB 2 previously submitted

It is clear that the site has been used as a storage yard and premises since at least 2010 as by this point the site had been visited and assessed for commercial rates (see appendix 1) and continues to pay these rates as shown by previously submitted rate bills.

Whilst Caravans have always been on site historically, they have moved about and been updated / replaced in that time.

Evidence of 10 years continual use

The use of the site for commercial storage for more than 10 years is clearly evidenced by the commercial rate assessment and continued payment of commercial rates throughout the period (see appendix 1 and previously submitted evidence) This use can also be clearly seen on google earth images for the whole of the 10 period and many years prior.

The use of the site for residential caravans is also visible on Google earth for the whole of the 10-year period. In addition, signed affidavits (submitted previously) have been provided by several tenants

3 of which

have lived at the site permanently for the whole 10-year period. Others have been some of the shorter-term residents over the 10-year period.

The site has been regularly used and visited by the local business community and as such a number of local business directors and current and previous councillors have also provided affidavits stating that the site has been in continual use for the whole 10-year period or longer for open storage, container storage and continually occupied residential caravans These are

Conclusion

We believe it is clear from the evidence provided that the site has been used for its current purpose for in excess of 10 years and would thus ask the council to grant a certificate of lawfulness for the current use.
