

Good afternoon,

With reference to the above application & the letter we received from you.

I have asked a member of my family to take a look at the plans online, as I'm not familiar with planning applications. He has advised that he thinks I should register an objection with you, regarding the height of the roof & the rear windows. He believes from previous plans he has had to work from, the roof is approximately 12ft high & possibly a flat roof could be considered & the rear windows should be obscured.

I look forward to hearing from you in due course.

Thank you for your time.
