Re planning application APP/22/00471

Dear Mr Speller,

I am writing to raise my objections against a building of a telephone mast on the green at St Johns Ave Waterloo

My first objection is that this mast is in close proximity to many people's homes and will dominate the landscape. It also will dwarf the many chalet bungalows and houses that overlook and are near the green. The noise level will also impact on people living and walking near the green.

The siting of the mast fails to conserve the low level landscape of this area which as a resident I enjoy.

Another concern is the impact that this development will have on our local wild life who are frequently seen on this estate.

I can not understand how the council can refer to this as a minor development when the impact of the development will affect so many residents in the St Johns Ave and surrounding areas.

Thank you in advance for your consideration in this matter
