Your ref: APP/21/007014

Proposed Development:- Reduce crown height of 1 in no: Ash Tree and
Epicormic growth.

I refer you to the above and our previous conversations with my
proposal to reduce crown height and spread as follows:-

Reduce crown height by 5 Metres & arc from NE to SW reduce by
4 Metres with SW to NW by 3 Metres. Thinning by 50% and removal of
epicormic growth up to and including first union approximately by
7 Metres above ground. Also any dead wood.

I enclose pictures of the tree in question.

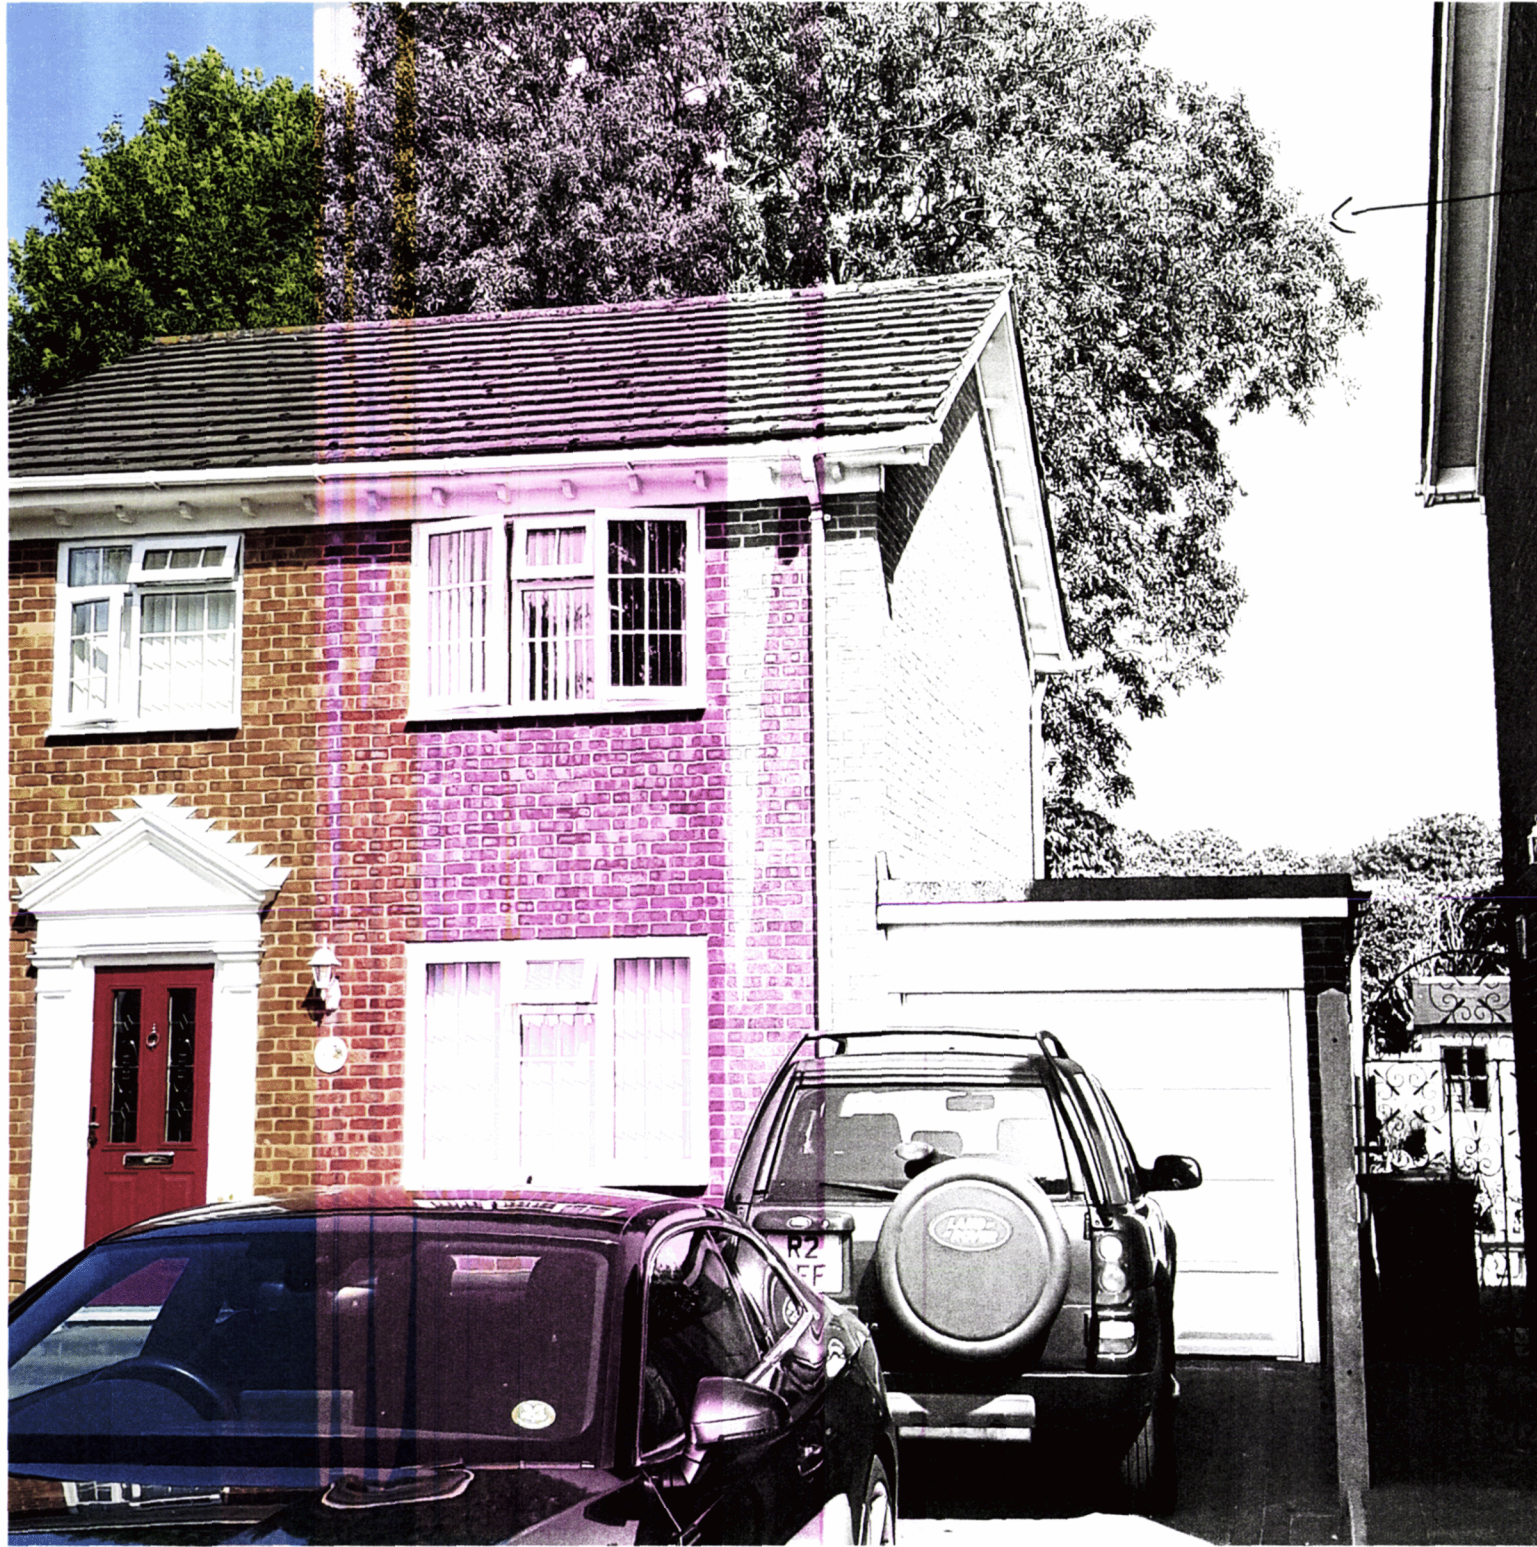

My contact number is [REDACTED] or email
address [REDACTED]

Yours sincerely

[REDACTED]

R J Finn
