Re. Proposed housing development Lower Rd.

Your Ref: APP/21/01071

Dear Mr J Mansi

I strongly oppose the above development for reasons as follows.

We already suffer an inordinate amount of traffic flowing through Lower Rd. be it pedestrians bicycles cars heavy goods lorries and motor bikes, two of which are extremely noisy and contribute noise and pollution times.

I objected to the current ongoing development in Lower Rd on the basis of the double blind bend preceding the route to Lower Rd being a potential accident hazard, given how narrow the road is.

In conclusion I don't think the extra pressure of more inhabitants in the locality can be sustained.

Yours Sincerely
