

21 September 2023

Dear Mr.Toole

I am writing in support of my neighbour at 66, New Brighton Road, regarding the planning application.

I have no issue whatsoever with adding a rear window on the first floor.

My patio area is hidden next to my house and there are various shrubs and trees obscuring the view along the garden border.

In the middle of my garden is a small wood, where nothing can be seen, a modest rear window overlooking our boundary would not concern me. It is a common feature for a family home, and a reasonable request.

It is also lovely to see young families coming into the area and giving a new lease of life to these older homes.

I am very happy for them to have a rear window on the first floor, and I have no objection for you to permit this.

Yours sincerely,
