Re Planning application
for land behind no 61-69.

I feel it is disgraceful to knock down so many houses 61-69, so that more houses can be built to swell the coffers of a building company & add income to our local authority through council tax.

The development is far too big for this small area

Where are the governments guide lines of biodiversity when trees & hedgerows will be felled the area is wonderful for birds, insects, moths butterflies & wild flowers. Bats are also seen.

Why do they need a play area on the site. Youths will gather especially at night, & leave litter as in the case of the one near Tesco. There is a perfectly good play area in the park which is nearby. The field itself is a complete swamp in winter drainage & sewage will be a problem.

Have the planners considered that more people will use the doctors surgery & dentists. You can't get an appointment as it is.

The road from Manor Road to existing Falthorpe Road is already dangerous. Accidents & near misses often occur.

I do not have internet
