Dear Sir or Madam

Re: APP/21/010701 Objection – Bedhampton – Bargate Homes

I was astounded to hear that Bargate Homes have had their initial planning application to build the first 50 houses in Lower Bedhampton accepted via government rules and that Bargate Homes have now applied for another planning application to be accepted for a further 43 houses. I would like to oppose this is on the grounds of safety issues relating to traffic mainly especially on the narrow road to get to these houses there is just no space for 2 cars to pass and a pedestrian this combined with the enormous building project taking place in Forty Acres and also up the hill opposite. The traffic already going through Bedhampton has increased enormously and needs to be assessed as any /all future planning projects will affect the elderly, children, parents using the roads to get and take their children to local schools both on foot and by car etc around Bedhampton and the new 'rat runs' that have and will increase because of mindless planning consent
