Dear Mr Lakhan

**Havant Thicket Reservoir Implementation:
Application to Havant Borough Council to discharge Conditions 21 to 23 on APP/20/00990**

Further to our recent emails, on behalf of Portsmouth Water's appointed contractor, Future Water JV Ltd, I am writing to formally apply to discharge planning conditions 21 to 23, relating to archaeology as part of the implementation of Havant Thicket Reservoir:

Condition 21 - Archaeological Evaluation (Written Scheme)

Condition 22 - Archaeological Evaluation (Programme)

Condition 23 - Archaeological Evaluation (Recording)

Conditions 21 to 23 have already been partially discharged relating to the Northern Access Road (phase 1). **This application seeks to discharge the conditions for all remaining phases of the proposed development.**

The application has been submitted through the Planning Portal and the application fee of £116.00 has been paid online. The Application comprises:

This covering letter

The application form

The Archaeological Management Plan (Havant Thicket Reservoir Archaeological Management Plan Rev 2 (March 2023).pdf)

The Written Scheme of Investigation (Havant Thicket Reservoir Main Works WSI Rev2 (March 2023).pdf)

A duplicate application has been submitted to East Hampshire District Council.

As you are aware, Future Water and its archaeological consultant has been liaising directly with HCC Archaeologist David Hopkins over the details of the information being submitted to discharge these planning conditions, and he has confirmed that the information being submitted as part of the application are acceptable to him. Once the Council has formally consulted him on this application, I hope he will re-confirm this such that the conditions can be discharged at the earliest opportunity.

If you have any queries on the application or require any additional information, please contact me on 07919 486420 or a.blaxland@adamshendry.co.uk

Yours sincerely

Andy Blaxland
Director
