

Re. Planning Application No. APP/17/01111

The Planning Officer,
Havant Borough Council.

We understand that the decisions on this application have not yet been finalised.

Since this is a Conservation Area in which until now all the houses have conformed to a very satisfying unity of colour and style, we would like to state our desire that this continues.

In particular we are concerned about the proposed colour, size and style of the house windows, front door and garage door. If one house is allowed to make significant changes, within a short time the whole courtyard would lose its present character.

We trust that this application will be considered very carefully in the light of the current charm and cohesion of this part of the Conservation Area in which we are fortunate enough to live.
