FAO Rachael Mc Murray

Il wish to support the application for Planning Permission and Development of the above site

This proposal to provide 25 retirement living apartments is very exciting for Emsworth. There is an urgent need for safe and secure apartments of this type in this area. There are many elderly people currently resident in Emsworth and surrounding areas who will be requiring this type of accommodation in the near future.

These apartments will reduce the impact on the NHS and local Social Services and free up the houses the occupants lived in previously .

I first came to Emsworth in 1965, 50 odd years ago. I am now [REDACTED] and am likely to apply to be a resident in one of these apartments.

I strongly support this application.
