Subject: Tree Preservation Order

CAUTION: This email came from outside of the council - only open links and attachments that you're expecting.

[redacted] on 2 occasions now we have had subsidence claims on our property over the last 10 years. Our insurance company confirmed that the damage to the property was due to the large oak trees around our property and a full survey /investigation confirmed this was the case. My neighbour (95 Sutton Road) submitted a request to remove the trees with TPO's which today we have discovered as part of the App number APP/24/00214 was rejected (the report from Crawfords was submitted as part of this application). Please note that this area has a high rate of subsidence and there are a large number of trees in the vicinity (farmland and forests behind our property).

Can you please now confirm that Havant council is now accepting liability for any future damage to [redacted] due to the rejection of this application request.

I will then proceed in forwarding the liability acceptance to Crawfords and our insurance Company to confirm you are accepting liability to cover any future costs/expenses we may incur.

Please forward this to the Legal team and I look forward for the correct paperwork for this acceptance.

Regards

[redacted]
