

We, as a family would like to object to the proposed building by Hampshire Homes LTD.

We have lived here for 30+ years and often use this route as a through from Westbourne to Emsworth with the dogs.

The field is a flood risk. Already acting as a run-off for the surrounding area.

Havant BC rejected a planning application on this site in 2013 on the risk of flooding - nothing has changed since.

The roads are already stretched (New Brighton and surrounding)

The area is home to four species of bat, two of which are endangered, and which feed above the hedgerows (equally important to other wildlife). If planning went ahead these would be removed.

We obviously understand that development is necessary, but the surrounding area is already under heavy development. This site meets all the criteria to become a designated green space, which would protect it for the future.

Many thanks & we look forward to hearing from you
