

HAVANT BOROUGH
COUNCIL

08 NOV 2019

RECEIVED

1/11/2019.

Dear Sir/Madam,

Once again I am writing, this time to object to planning application App/19/00870

My objections are that the land at no 56 Kings road is a garden not a building ~~site~~ plot.

The original builders of Kings road estate.

obviously realised that to cram an extra house onto this corner was in no ones best interest.

No 56 and its garden are on a blind bend with six driveways and at least fourteen vehicles entering and exiting on this bend often with limited vision and forced to approach on the wrong side of the road due to cars parked all along and sometimes actually on the corner.

Longterm residents have already ~~have~~ had months of building work by new residents, resulting in noise, heavy vehicles

2/

Vans parking across pavements, we will now face months of the same and worse. Who are lorries and vans going to unload materials and park. Parking is already limited.

Its about time the council put quality of life of present residents before the greed of builders, but I suppose it will be extra community charge going into Council pockets. at our expense.

I have written this knowing it will make little difference to the outcome but I have done my bit.

I would like a meeting on sight with highways and council to address these problems.

Yours sincerely
