Havant
PO9 2AX

Dear Ms Sheath,

Planning Application APP/21/00059 Towers Gardens, Langstone.

This planning application has caused understandable concern in the village. Members of the Langstone Village Association were asked if an official letter of opposition should be written and the great majority of those who responded said yes.

In 1975, Langstone was granted Conservation Area status to protect an iconic village from unwelcome development. This was strengthened in 2011 at a meeting of the Development Control Committee when Article 4 (1) Direction (2.1.1. of the Management Plan) was introduced.

Permitting the erosion of green spaces in Towers Garden by allowing this application not only changes the character of a valuable cul-de-sac, it changes the whole village with an impact on all the other residents

Langstone Village Association oppose this plan because if granted it would be a serious breach of established conservation standards. It would also break an agreement H.B.C. made collectively with all Langstone residents

We strongly request this application be refused

Yours Sincerely

Langstone Village Association Committee
