

APP/18/000672 Land Off Westwood Close, Emsworth

I hope I am not too late to object to this Planning Application,

I am a regular walker from Emsworth to Westbourne through Brook Meadow and then this field. It is a lovely wide open space and a wildlife corridor. To restrict the walk to just beside the River Ems would deprive the area of a real country walk. At present a tremendous amount of water is extracted upstream from the River Ems. If this should not continue and the Ems allowed to revert to its natural flow, this field will be a water meadow and be unsuitable for housing.

Yours sincerely
