Dear Mrs. Chisnall,

I'm writing to object to the proposed erection of opaque glass screening on the above referenced retrospective planning application.

I understand that the occupant of No. 24 has complained about the erection of No. 23's decking, due to lack of privacy.

We at No.22 have not objected to the decking, we have no objections to the decking regarding privacy, but we do now object to the screening to be erected on our side of the decking. The side of No. 22.

We have lived next door to Mr. & Mrs. Large for 23 years. We have a fabulous relationship with them, they are more like family than neighbours.

By erecting the screen on our side of the decking, will be like sectioning them off from us. Dividing us. Precluding us from socialising with them. Taking away our established way of lives for the past 23 years. During nice weather, we sit outside almost every evening, us on our deck, and previously to Mr. & Mrs. Large erecting their decking, they would sit on the landing to their staircase and we would spend the evenings chatting.

This screening would prohibit this in the future.

We would like the planning department to reconsider the erection of the screening on the side of No.22. We fully appreciate you must act on objections to certain plans, and that by proposing the screening should accommodate the requirements of the complaint by No. 23, however we ask that you consider our request to leave our side free of screening to enable us to continue with the wonderful way of life we have enjoyed for the past 23 years.

Yours sincerely,

Rachel Surman
