Dear Madam,

Planning Application Reference: APP/15/01356
Site Address: War Memorial, St Faith's Church, Havant

Further to my email of 5th December regarding planning application no: App/15/01241, now superseded by application no: App/15/01356, I wish to make the following comment.

As chairman of the Havant History Group, I would like to register the Group's concern regarding proposed changes to the War Memorial by St Faith's Church in West Street, Havant.

I reiterate the Group's support for the sentiments in the letter, ref: WM7328, sent to you by the War Memorials Trust in regards to the earlier application. Specifically, rigorous research needs to be undertaken to ensure that the names of service men and women are correct and that close living relatives such as parents have been consulted in order to ascertain their wishes with regards to the display, if any, of names of their loved ones on the War Memorial.

In addition, the War Memorial is of architectural and historic significance and merits careful consideration of any changes that might affect its design.

Yours faithfully,

Christine Bury
