Proposal for Extension and New Store

At 51 Fathoms Reach, Hayling Island

We refer to your notifications, reference APP/18/00989, dated 5th and 22nd October, of the proposed extension and new building at the above address, to which we object, and wish to register with you an appeal against certain aspects of the application.

An 8 foot high 14 foot long brick wall, overlooking and only a few feet away from our lounge window and patio recreational area, will be overbearing. The appearance will be unsightly for us and the increase in size of the additional buildings is not in keeping with the general aspect of the surrounds.

Our grounds for appealing are:-

- 1) The relocation of the garage could reduce the daylight to our living room/dining room .
- 2) The construction of the party wall, only a few feet from, close to the window/ door of our lounge, has a considerable effect on our outlook from the lounge and will also detract from the patio area to which we exit directly onto from the lounge. The wall will also increase shade on the patio area and there could be further daylight diminution in the lounge.

We consider these parts of the project to be impinge on our outlook, affect our daylight and that other options for such an extension should be examined.
