David Eaves, Esq.,
Havant Borough Council
Development Control
Public Service Plaza
Havant
Hants PO9 2AX.

17th April 2022.

Dear Mr Eaves,

19 St Peters Avenue, Hayling Island, PO11 0SA.

Further to the planning consent, dated 5th March, your ref: APP/20/00888, we now enclose relevant drawings and documents to discharge the final Conditions 3, and 8.

With regards to Condition 3, drawing no. 1018/DM/01 illustrates the external materials for the bricks, tiles and windows.

And Messrs. Paragon's MVHR and Pumps noise assessment report sets out the noises levels of the MVHR systems and the basement pumps. It concludes that the levels are so low that they at a level equivalent to the 'No Observed Effect Level'. Thus any mechanical noise from the pumps and MVHR systems will inaudible at the site boundaries.

I trust the documents enclosed give you the information you require, but please don't hesitate to call/email me if you require any further details.

We enclose the relevant planning documents together with fee of £34.00.

We trust you will be able to discharge these Conditions as soon as you can. I look forward to hearing from you.

Yours faithfully,

Ian Faithfull
Faithfull Architects.
