

25th July 2022.

Planning Officer,
Havant Borough Council,
Civic Centre Rd,
PO9 2AZ.

Dear Sirs,

Re: Planning Application No.21/00893 – 210 Houses on Land North of Long Copse Lane,

Despite the submitted local plan being withdrawn and the objection of the ERA and the EMS having given their full support to "Stop Long Copse Lane development" since 2018 and hundreds of local objections, developers are still trying their luck at getting permission to built an estate of some 210 properties and possibly more at a later date!

It is obvious that the narrow lanes adjacent will not be able to cope with a possible 500 to 600 more vehicles on them. Doctors and schools will be unable to cope with the large amount of people that would be reliant on them as they are up to maximum capacity already. Q.A and St.Richards Hospitals are at breakdown point now! Furthermore, Thornham Waste Disposal unit has stated that they do not have the capacity for any further sewage.

This development has been viewed on many occasions and each time has thrown up major problems which realistically has no sensible or safe solution.

Now surely is the time to send a resounding NO to these Developers that has no interest in the preservation of our local area and doesn't even consider the environmental damage that such a monstrous project would cause.
