

Dear Sir/Madam

I am writing to express our concern at the proposed development of dwellings on land south of Lower Road, Bedhampton. We live in Old Portsmouth but visit this area regularly to enjoy walking in this beautiful, peaceful, historic countryside. It seems to us that the area is important for wildlife, particularly birds, and should be protected rather than destructively (at least, as far as the wildlife is concerned) developed. The peace, tranquility and charm of the area will, we believe, be ruined if this development goes ahead, and the resulting increase in environmental pollution should be taken very seriously.
