Dear Sir,

Re. Planning Application APP/17/0111

I am the owner and resident of property on the leasehold immediately south of the proposed development and wish to raise the following objections -

- 1/ Development of roof space into living accommodation thus increasing capacity by four or more persons.
- 2/ Erection of a "Office" building, remote from main house, immediately adjoining my north boundary wall and one meter from my property.
- 3/ Conversion of an originally designed and built 3-4 bedroom house into a multi story house accommodating possibly eight or more persons thus contravening original planning decision.

From the above I fear my peaceful living will be jeopardised by the change from a modest family ~~to~~ house into a very busy and over populated commercial building.

Yours faithfully
