Dear Sirs,

Re: Planning Application No. APP/19/00722

I strongly object to the planning application to build 5 penthouse flats on to the top of Ward Court.

The development, in my view, will make what is already high density living even more so. Especially with reference to car parking. Currently the parking available to the residents is inadequate adding 5 new apartments will only exacerbate the situation. The plans really don't cover it at all. The loss of the gardens to be made over for parking is an unacceptable loss of amenity and the parking proposed either side of the narrow entrance I would have thought is an accident waiting to happen!

I know that you will not take the following into account but I am going to say it anyway. 

 I enjoy my views of the sea. The thought of for the latter years of my life I am going to be subjected to the noise, mess, disruption and of scaffolding obscuring my windows that a large scale building project will bring fills me with dread.

Yours Faithfully
