Appendix G	Ferry Timetable

1.0 Introduction

- 1.1 Patrick Parsons has been commissioned by Away Resorts to prepare a Transport Statement to accompany a planning application for the proposed redevelopment at Mill Rythe Holiday Park, Havant Road, Hayling Road, PO11 0PB.
- 1.2 Hampshire County Council (HCC) is the Highway Authority and Havant Borough Council is the Local Planning Authority.
- 1.3 The holiday park is located along the east coast of Hayling Island, just off Havant Road and is an extensive holiday park with 260 holiday chalets, permission for 31 static holiday caravans, a very large central facilities complex, outdoor pool, extensive parking area, cafes and various recreation facilities.

Planning History

- 1.4 Planning permission was granted in 2017 for the demolition of the central buildings and chalets, refurbishment of the remaining chalets and additional caravans such that there would be no net increase in the number of holiday units, which would remain at 290 units total. More information can be found online at the Havant Borough Council Planning Portal: [APP/16/01237](#).
- 1.5 Due to the COVID-19 Pandemic, Away Resorts has determined that the approved redevelopment is no longer viable. Therefore, it has been proposed that all the chalets on site be redeveloped and that an increase of 18 units, to that of the existing situation. This would increase the total number of holiday units on the site from the permitted 291 units, to 309 units. The Proposed Site Plan is shown in **Appendix A**.
- 1.6 The remainder of this report contains the following chapters:
 - **Chapter 2** considers current and relevant policies at national and local levels which underpin the development of the site from a transport and highways perspective;
 - **Chapter 3** provides a description of the existing site, surrounding highway network, existing access;
 - **Chapter 4** details the development proposals, proposed access, car and cycle parking strategy and servicing arrangements;
 - **Chapter 5** assesses the trip generation from the proposed development and its impact on the surrounding highway network;
 - **Chapter 6** details the sustainable transport accessibility in relation to the application site;
 - **Chapter 7** summarises and concludes the findings of the report.

2.0 Planning Policy Review

2.1 This chapter provides an overview of national and local policies for land use and transport that are relevant to the proposed development. These are:

- National Planning Policy Framework (July 2019)
- Hampshire Local Transport Plan 2011-2031 (August 2013) and,
- Eastbourne Core Strategy Local Plan (February 2013)

National Planning Policy Framework (NPPF) (July 2019)

2.2 The revised National Planning Policy Framework sets out the Government's planning policies for England and how these should be applied. It provides a framework within which locally prepared plans for housing and other development can be produced.

2.3 With regards to Promoting Sustainable Transport NPPF states:

Para 102

2.4 Transport issues should be considered from the earliest stages of plan-making and development proposals, so that:

- a) the potential impacts of development on transport networks can be addressed;
- b) opportunities from existing or proposed transport infrastructure, and changing transport technology and usage, are realised – for example in relation to the scale, location or density of development that can be accommodated;
- c) opportunities to promote walking, cycling and public transport use are identified and pursued;
- d) the environmental impacts of traffic and transport infrastructure can be identified, assessed and taken into account – including appropriate opportunities for avoiding and mitigating any adverse effects, and for net environmental gains; and
- e) patterns of movement, streets, parking and other transport considerations are integral to the design of schemes and contribute to making high quality places.

Para 103

2.5 The planning system should actively manage patterns of growth in support of these objectives. Significant development should be focused on locations which are or can be made sustainable, through limiting the need to travel and offering a genuine choice of transport modes. This can help to reduce congestion and emissions and improve air quality and public health. However, opportunities to maximise sustainable transport solutions will vary between urban and rural areas, and this should be considered in both plan-making and decision-making.

Para 104

2.6 Planning policies should;

- a) support an appropriate mix of uses across an area, and within larger scale sites, to minimise the number and length of journeys needed for employment, shopping, leisure, education and other activities;

- b) be prepared with the active involvement of local highways authorities, other transport infrastructure providers and operators and neighbouring councils, so that strategies and investments for supporting sustainable transport and development patterns are aligned;
- c) identify and protect, where there is robust evidence, sites and routes which could be critical in developing infrastructure to widen transport choice and realise opportunities for large scale development;
- d) provide for high quality walking and cycling networks and supporting facilities such as cycle parking (drawing on Local Cycling and Walking Infrastructure Plans);
- e) provide for any large-scale transport facilities that need to be located in the area⁴², and the infrastructure and wider development required to support their operation, expansion and contribution to the wider economy. In doing so they should take into account whether such development is likely to be a nationally significant infrastructure project and any relevant national policy statements; and
- f) recognise the importance of maintaining a national network of general aviation airfields, and their need to adapt and change over time – taking into account their economic value in serving business, leisure, training and emergency service needs, and the Government's General Aviation Strategy.

Para 105

2.7 If setting local parking standards for residential and non-residential development, policies should take into account:

- a) the accessibility of the development;
- b) the type, mix and use of development;
- c) the availability of and opportunities for public transport;
- d) local car ownership levels; and
- e) the need to ensure an adequate provision of spaces for charging plug-in and other ultra-low emission vehicles.

Para 106

2.8 Maximum parking standards for residential and non-residential development should only be set where there is a clear and compelling justification that they are necessary for managing the local road network, or for optimising the density of development in city and town centres and other locations that are well served by public transport (in accordance with chapter 11 of this Framework). In town centres, local authorities should seek to improve the quality of parking so that it is convenient, safe and secure, alongside measures to promote accessibility for pedestrians and cyclists.

Para 108

2.9 In assessing sites that may be allocated for development in plans, or specific applications for development, it should be ensured that:

- a) appropriate opportunities to promote sustainable transport modes can be – or have been – taken up, given the type of development and its location;

- b) safe and suitable access to the site can be achieved for all users; and c) any significant impacts from the development on the transport network (in terms of capacity and congestion), or on highway safety, can be cost effectively mitigated to an acceptable degree.

Para 109

- 2.10 Development should only be prevented or refused on highways grounds if there would be an unacceptable impact on highway safety, or the residual cumulative impacts on the road network would be severe.

Para 110

- 2.11 Within this context, applications for development should:
- a) give priority first to pedestrian and cycle movements, both within the scheme and with neighbouring areas; and second – so far as possible – to facilitating access to high quality public transport, with layouts that maximise the catchment area for bus or other public transport services, and appropriate facilities that encourage public transport use;
 - b) address the needs of people with disabilities and reduced mobility in relation to all modes of transport;
 - c) create places that are safe, secure and attractive – which minimise the scope for conflicts between pedestrians, cyclists and vehicles, avoid unnecessary street clutter, and respond to local character and design standards;
 - d) allow for the efficient delivery of goods, and access by service and emergency vehicles; and
 - e) be designed to enable charging of plug-in and other ultra-low emission vehicles in safe, accessible and convenient locations.

Para 111

- 2.12 All developments that will generate significant amounts of movement should be required to provide a travel plan, and the application should be supported by a transport statement or transport assessment so that the likely impacts of the proposal can be assessed.

Hampshire Local Transport Plan 2011-2031 (August 2013)

- 2.13 The Hampshire Local Transport Plan runs from 2011 – 2031 and provides the framework to address the transport planning issues facing Hampshire. It is the third Local Transport Plan that has been produced.

2.14 Transport Priorities

Working with others, Hampshire County Council must make choices about the policy interventions that are most likely to achieve the Vision set out. This chapter contains three main transport priorities for Hampshire over the next 20 years, and fourteen further policy objectives, structured under five broad themes:

- a) Supporting the economy through resilient highways;
- b) Management of traffic;
- c) The role of public transport;
- d) Quality of life and place;
- e) Transport and growth areas.

2.15 Transport Policies

The 14 policies that follow (Policies A to N) set out the policy framework through which the Transport for South Hampshire authorities will seek to address the challenges. The philosophy of Reduce-Manage Invest is central for each proposed policy. This means the Transport for South Hampshire authorities will work to reduce the need to travel, maximise the use of existing transport infrastructure and deliver targeted improvements. A combined approach to delivering the policies will enable us to deliver the proposed transport vision, address the challenges and achieve the outcomes set out above. The policies constitute a package, with each policy contributing to, and complementing, the others. For each policy there is a toolkit of delivery options, from which each Local Transport Authorities will select the most appropriate for inclusion within their future Implementation Plans. Many of these delivery options will be common to each authority.

- **Policy A:-** To develop transport improvements that support sustainable economic growth and development within South Hampshire.
- **Policy B:-** Work with the Highways Agency, Network Rail, ports and airports to ensure reliable access to and from South Hampshire's three international gateways for people and freight.
- **Policy C:-** To optimise the capacity of the highway network and improve journey time reliability for all modes.
- **Policy D:-** To achieve and sustain a high-quality, resilient and well-maintained highway network for all.
- **Policy E:-** To deliver improvements in air quality.
- **Policy F:-** To develop strategic sub-regional approaches to management of parking to support sustainable travel and promote economic development.
- **Policy G:-** To improve road safety across the sub-region.
- **Policy H:-** To promote active travel modes and develop supporting infrastructure.
- **Policy I:-** To encourage private investment in bus, taxi and community transport solutions, and where practical, better infrastructure and services.
- **Policy J:-** To further develop the role of water-borne transport within the TfSH area and across the Solent.
- **Policy K:-** To work with rail operators to deliver improvements to station facilities and, where practical, better infrastructure and services for people and freight.

- **Policy L:-** To work with Local Planning Authorities to integrate planning and transport.
- **Policy M:-** To develop and deliver high-quality public realm improvements.
- **Policy N:-** To safeguard and enable the future delivery of transport improvements within the TfSH area.

Havant Core Strategy (March 2011)

- 2.16 This Core Strategy runs from 2011 – 2026 and sets out the local council’s vision and plan for how the borough will grow and develop over the 15 years that the plan will run for. It sets out a range of planning policies which will enable the successful delivery of thriving places, energy efficient housing, a dynamic economy, the provision of community infrastructure. The Council’s decisions on planning applications should be made in line with its development plan unless there are significant matters (material considerations) that indicate otherwise.

2.17 Hayling Island

Hayling Island is separated from the mainland and the remainder of the borough by Chichester and Langstone Harbours. It is surrounded by Chichester and Langstone Harbours. It is surrounded by a variety of nature designations including some of national and international importance. The majority of the island is open countryside and farmland with a concentration of urban development to the south. The coastline and harbours are attractive features but they also present unique challenges for the future of this part of Havant Borough.

Population

- 2.18 Hayling Island has a population of approximately 16,788 of which approximately 25% are over the age of 65. The proportion of elderly people is expected to rise as the existing population ages and more people move to the island owing to its attraction as a retirement destination.
- 2.19 This age structure presents unique challenges for Hayling Island in terms of the housing requirements and also health infrastructure.

Economy

- 2.20 There is a strong marine related employment base on the island. Tourism and the day visitor economy are also important. Mengham/Gable Head District Centre provides a modest but successful retail centre. Overall employment opportunities on the island are limited and many people commute off the island to work.

Other characteristics

- 2.21 A significant proportion of Hayling Island is considered to be at risk from coastal flooding, particularly when the expected implications of climate change are taken into account. This presents a challenge in balancing the risks from flooding whilst seeking to maintain and improve the tourism economy and safeguard the protected habitats.

Challenges and Opportunities

- 2.22 The tourism economy of Hayling Island is very seasonal, but it also provides over one tenth of the borough’s jobs.

- 2.23 Access on and off the island presents a challenge and this has been highlighted by the residents of Hayling Island. For this reason (although tourism is promoted on Hayling Island as one of the key objectives specific to that area) tourism provision will not be concentrated solely on Hayling Island, with further opportunities for tourism available elsewhere in the borough.

How will these be addressed?

- 2.24 This Core Strategy includes policies that support the retention and enhancement of tourism and tourist facilities. The importance of tourism on Hayling Island is further supported through the identification of south Hayling Island as an area for focused regeneration. Further information about this is detailed in Chapter 4, Regeneration and Community Support.
- 2.25 Redevelopment and regeneration here will update tourism facilities and improve the tourism offer while remaining sympathetic to the character of Hayling Island.
- 2.26 The limitations of the road access on and off the island are recognised and together with nature constraints and the potential impacts of flooding have led to a lower distribution of housing and employment uses on Hayling Island than may have otherwise been expected. Employment distribution and housing are identified in Chapters 3 and 6 of this Core Strategy.

2.27 Policy CS5: Tourism

Planning permission will be granted for appropriate development proposals around the borough that:

1. Provide sustainable and small-scale recreational opportunities.
2. Provide hotel and other types of tourist accommodation.
3. Safeguard existing tourist facilities, hotels, holiday centres and caravan parks.
4. Improve existing tourist facilities, hotels, holiday centres and caravan parks.

2.28 Policy CS6: Regeneration of the Borough

Planning permission will be granted for development which positively contributes by type of use and design and by its comprehensive approach to the social, economic and/or physical regeneration of the whole borough; particularly when it is focused in the following places as shown on the Proposals Map:

1. Havant Town Centre, with particular focus on:
 - a) Market Parade.
 - b) Havant Railway Station.
 - c) Connectivity with the Public Service Village.
 - d) Connectivity between Solent Toad and West Street.
2. Waterlooville Town Centre, with particular focus on:
 - a) London Road public realm.
 - b) Integration of Major Development Area.
 - c) Connectivity with Wellington Retail Park.
 - d) Improved car and cycle parking, public realm and a sustainable mix of uses.

3. Leigh Park, with particular focus on:
 - a) Leigh Park Centre, improved car and cycle parking, public realm and a sustainable mix of uses
 - b) A balanced housing market.
 - c) Supporting healthy lifestyles.
 - d) Community Safety.
 - e) Connectivity with the rest of the borough.
 - f) Training and employment opportunities.
4. South Hayling Island, with particular focus on:
 - a) Seafront boardwalk.
 - b) Flood and erosion management measures.
 - c) Water related sports facilities.
 - d) Beach Hut and beach user facilities and educational information.
 - e) Small scale tourist facilities.
5. Weock Farm, with particular focus on:
 - a) Community support – Community Centre.
 - b) Transport connectivity.
 - c) Green Infrastructure.
 - d) Community safety.
 - e) Training and employment opportunities.

All development proposals made under this policy must ensure that they benefit the borough socially, environmentally and economically.

2.29 **Policy CS16: High Quality Design**

Planning Permission will be granted for development that is designed to a high standard, which helps to create places where people want to live, work and relax. All development should demonstrate that its design:

1. Responds to, draws inspiration from and respects local context and:
 - a) Identifies and responds positively to existing features of natural, historic or local character within or close to the proposed development site;
 - b) Integrates with existing local landscape features, promotes wildlife and biodiversity and/or applies characteristics of the local area into the design of a scheme wherever possible to create variety and interest;
 - c) Uses the characteristics of the locality to help inform the design of the new development including heights, massing, existing buildings lines, plot widths and depths, materials and proportions of windows and doors;
 - d) Is well connected to and integrates with the immediate local area and the wider area by linking to existing pedestrian and cycle routes and encouraging people to use public transport where possible; and
 - e) The development does not cause unacceptable harm to the amenity of neighbours through smell, the loss of privacy, outlook, noise and overlooking.

2. Produces a positive relationship between buildings, street and spaces both existing and proposed, where:
 - a) The layout of the development reduces opportunities for crime and antisocial behaviour; contributes to improving community safety; and makes provision for the management and maintenance of the development;
 - b) New streets are not dominated by vehicular traffic;
 - c) The layout of the development is legible, meaning it is easy to orientate oneself and move through.
3. Contributes to the improvement of the public realm close to the development, particularly sites close to town, district and local centres and other priority regeneration areas by using high quality hard and soft landscape material and street furniture; and where development is of a significant scale or prominence makes provision for public art.
4. Is inclusive by considering the needs of those with disabilities, ensuring safe and convenient access for all; and integrating affordable and supported housing with market housing through tenure blind design to minimise social exclusion and promote social integration.
5. Maximises opportunities for mixed use developments, particularly in town and district centres; and encourage higher densities (50+ dwellings per hectare) where appropriate.
6. Mitigates negative environmental impacts through sustainable design and construction methods, resource efficiencies, particularly water and the provision of facilities for waste recycling.
7. Adapts to the changing needs of the users and the changing climate over the lifespan of the building.

2.30 Policy CS20: Transport and Access Strategy

Development will be permitted that:

1. Is consistent with and contributes to the implementation of the 'Reduce, Manage and Invest' strategy.
2. Does not increase congestion and promotes better use of existing transport networks.
3. Improves accessibility to goods, services and employment and promotes equality in the transport system.
4. Provides transport management measures to ensure the safe and efficient operation of the strategic and local road network.
5. Ensures that highway design responds positively to the characteristics of the area and delivers a high quality public realm for all users.
6. Maintains or improves the range of transport modes accessible to the users of the development site with specific emphasis on public transport, especially high quality/frequency buses and includes walking and cycling where appropriate.
7. Improves highway, cycling and pedestrian links between the western built up area of the borough (Waterlooville) and the eastern area of the borough (centred on Havant) to create a strong east/west communication axis that passes through Dunsbury Hill Farm/Leigh Park.

2.31 Policy DM4: Static Holiday Caravan Development

Development involving the provision, continued location or improvement of static holiday caravan sites will only be permitted where both of the following criteria are met:

1. The development would have a close physical relationship to existing caravan sites.
2. The caravan is to be used for holiday purposes only and has a limited period of occupancy for a maximum of ten months per calendar year.

3.0 Site Location and Existing Development

Existing Site and Location

3.1 Mill Rythe Holiday Village is located on the east coast of Hayling Island, just off Havant Road (A3023). The site is directly adjacent to the coastline in Chichester Harbour along the Mill Rythe estuary. The holiday resort comprises an irregular shaped parcel of land which measures 13.9 hectares and has been in use as a holiday park since at least the 1940's. The Site Location Plan is included in **Appendix B**.

3.2 Mill Rythe provides a range of facilities for guests, including;

- 260 holiday chalets, with implemented permission for 31 additional static holiday caravans (total 291 units)
- Central facilities complex with offices, reception, ballroom, restaurant bar, indoor pool, and hair/beauty salon
- Outdoor Swimming pool with kiosk
- A pub-restaurant
- Boating lake and playground
- A café
- Car and coach parking

Highway Network

Havant Road (A3023)

3.3 Havant Road is a two-way road that has a speed limit of 40 mph and single carriageway near to the site access. Havant Road is the only transport link between Hayling Island and the rest of Hampshire, with a bridge across Langstone Harbour, connecting the island to the mainland. There is street lighting and a pedestrian footway on the eastern side of the carriageway connecting to the wider footway network on the island.

3.4 Bus stops are located on Havant Road near to the site access, providing frequent services to Havant and to the south of the island.

Traffic Surveys

3.5 Automatic Traffic Surveys (ATCs) were installed on Havant Road, approximately 150m north on the site access. The ATCs were installed for 7 days between that dates of Wednesday 26th August 2020 and Tuesday 1st September 2020, to coincide with the August bank holiday weekend when the roads are busy. The full ATC results are included at **Appendix C**.

3.6 The results show that traffic flows onto and off-of the island were similar each day, with a daily average of 9727 southbound flows and 9743 northbound flows over the 7-day period. Traffic flows are highest between 10am and 6pm when there was an average of 828 southbound movements and 742 northbound movements per hour.

Personal Injury Accident Data

- 3.7 We have consulted the CrashMap website (www.crashmap.co.uk) for the Personal Injury Data (PIA) for the roads surrounding the site. The data has been obtained for the latest five-year period between 2014 and 2019. This reveals that there have been 2 accidents close to the site on Havant Road (A2303) in the time period, see **Figure 3.1**. All these accidents have been classed as being slight, with the most recent accident occurring in April 2018.

Figure 3.1 – PIA data close to Site.

4.0 Proposed Development

Development Proposal

- 4.1 The proposal is very similar to the permitted development. The old chalets will be demolished, and 309 new caravans will be sited, increasing the number of units on site from the current permitted provision of 291 units. The central complex building will remain on site as will several external facilities for guests. The following facilities will be provided;

- Central facilities complex with offices, reception, ballroom, restaurant bar, indoor pool, and hair/beauty salon
- A pub-restaurant
- Boating lake and playground
- Café
- Crazy Golf course
- Play Areas
- Car and coach parking

Proposed Access

- 4.2 The site will be served via the existing access from Havant Road and no alterations are proposed to the driveway itself, which is generally a minimum 4.8m wide allowing two-way vehicle flows. Internally, the site layout will be almost identical to the permitted site layout with minimum 3.7m wide shared surface drives maintaining low vehicle speeds, with passing places for vehicles.

Parking

- 4.3 Each caravan will be provided with a single car parking space. Additionally, car parking will be provided close to the central facilities for use by visitors while checking-in, and for staff use.

Cycle Parking

- 4.4 Each caravan will be provided with a 'Sheffield style' cycle parking loop to accommodate 2 cycles. Additionally, long stay cycle parking will be provided for staff use.

Refuse and Servicing

- 4.5 Refuse areas will be provided and collection procedures will remain the same.
- 4.6 Internally turning heads are provided allowing a large refuse vehicle; fire tenders and service vehicle to enter and exit the site in a forward gear.

5.0 Highway Impact

- 5.1 When undertaking a Transport Statement for a site, it is normal practice to consider the likely impact of the proposed development traffic in the peak hours, i.e. when the combination of existing and proposed traffic is at its highest. The proposal is a modest increase to the existing holiday park units, from 291 units to 309 units. The additional 18 units will have a limited impact on the local highway network.
- 5.2 Currently, the holiday park staggers check-in times for certain types / levels of accommodation, and this will continue to be the case. Typically, check-ins are busiest through the hours of 2pm-7pm and therefore, an average of 4 additional trips per hour would be expected from the 18 additional units.
- 5.3 It should be remembered that the ATC results showed in the region of 1,570 two-way trips per hour on Havant Road near to the site access in the afternoon peak periods and therefore, an additional 4 trips per hour would equate to around 0.2% additional traffic which would have an insignificant effect.
- 5.4 Each caravan is designed to accommodate one family only and they will not be let or sold to more than one family staying at a time to make sure that additional car journeys will therefore not take place.

Construction Management Plan

- 5.5 It is accepted that the regeneration of the site will result in the requirement to transport many caravans onto the site. However, it is anticipated that the site will be redeveloped over a number of years with no more than 40-60 caravans being brought onto the site in any one year, and these movements will mainly take place from November to March (inclusive), outside the main holiday season, when the roads are far less busy with far less holiday traffic. A Construction Management Plan can be secured by condition which will set out the detailed construction program, the number of traffic movements and the times of movements etc.

6.0 Sustainable Transport

Walking

- 6.1 There is good footway provision on the local highway network and footways are provided for pedestrians accessing Hayling Island and its local facilities.
- 6.2 For pedestrians without mobility impairment, the Institution of Highways and Transportation (IHT) in their publication, 'Guidelines for Providing for Journeys on Foot 2000' made a series of suggested acceptable walking distances in relation to some common facilities. **Table 6.1** below sets out suggested acceptable walking distances in relation to some common facilities. More recent guidance in Manual for Streets states that "walkable neighbourhoods are typically characterised by having a range of facilities within 10 minutes' walk (up to about 800m) walking distance of residential areas". **However, it goes on to say that this is not the upper limit and states that walking offers the greatest potential to replace short car trips, particularly those under 2km.**

Table 6.1 – Suggested Acceptable Walking Distances

	Town Centres, Retail	Employment and Leisure	Elsewhere
Desirable	200m	500m	400m
Acceptable	400m	1,000m	800m
Preferred Maximum	800m	2,000m	1,200m

Local Amenities

- 6.3 The site is located on Hayling Island which offers many amenities close-by. A shopping parade at Elm Grove (approximately 2km from the centre of the site) is a 25-minute walk or an 8-minute cycle ride. Elm Grove shopping parade offers a number of grocery stores; restaurants and takeaways, a pharmacy, a post office, a bank, and several independent shops. A selection of other local facilities is listed in **Table 6.2** below.

Table 6.2: Distances and walk times to nearby services and facilities

Service / Facility		Distance (metres)	Walk Time (minutes)
Grocery / Supermarket	• Lidl Supermarket	• 800	• 10
Bank / ATM	• TSB Hayling Island	• 1500	• 18
Public House / Restaurant	• Yew Tree Public / Restaurant	• 1800	• 22
	• Maypole Pub / Restaurant	• 1400	• 17
	• The Oven Cafe	• 600	• 8
Public Amenity Space	• Tournerbury Golf Course	• 1200	• 15

Buses

- 6.5 The nearest bus stops are located approximately 750m (10-minute walk) from the centre of the site. A summary of these bus services is shown in **Table 6.3** below and the local bus information is attached as **Appendix E**.

Table 6.3: Bus Service Summary

Service	Monday - Friday		Saturday		Sunday	
	General Hours of operation	Maximum daily frequency	General Hours of operation	Maximum daily frequency	General Hours of operation	Maximum daily frequency
30 <i>Havant – Mengham</i>	05:35 – 21:55	Every 30 minutes	06:05 – 21:42	Every 30 minutes	08:16 – 20:17	Every 60 minutes
31 <i>Havant – West Town</i>	07:21 – 22:11	Every 35 minutes	06:45 – 22:11	Every 30 minutes	09:16 – 19:17	Every 60 minutes

Cycling

- 6.6 Para. 2.2.2 of Local Transport Note 1/20 states that “two out of every three personal [cycling] trips are less than five miles in length (8km) – an achievable distance to cycle for most people with many shorter journeys also suitable for walking.”
- 6.7 Based on a relatively slow cycling speed of 15kph (10mph), a 5km distance could be achieved in 20 minutes and an 8km distance could be achieved in 32 minutes. The 5-kilometre cycle catchment extends to the whole of Hayling Island and Havant.
- 6.8 A Cycle Map for Hayling Island is included in **Appendix F**. Off Road cycle routes are provided close to the site for easy leisure cycling.

Railway

- 6.4 Havant Train Station is easily accessible by bus or taxi being 7.2 km (4.5 miles) from Mill Rythe Holiday Village. The station provided frequent services to and from Portsmouth, Southampton, London, and Brighton and could be used by guests visiting the site.

Ferry

- 6.5 A ferry runs from Portsmouth to Hayling and carries passengers, cycles, and motorcycles. Hayling ferry runs regular services from the south western tip of Hayling Island over to Eastney in Portsmouth. A Timetable is included in **Appendix G**.

Summary

- 6.9 This section has identified existing transport links. These show that the application site is accessible by a variety of sustainable transport modes and provides reasonable access to facilities within Hayling Island in easy walking and cycling distance.

7.0 Summary and Conclusion

- 7.1 Patrick Parsons has been commissioned by Away Resorts to prepare a Transport Statement to accompany a planning application for proposed development at Mill Rythe Holiday Park, Havant Road, Hayling Island, PO11 0PB.

Sustainable Travel

- 7.2 It has been identified that the site is accessible by a variety of sustainable transport modes including walking, cycling and public transport which could be used as an alternative to the private car. Bus stops are located on Havant Road, within 750m walking distance from the centre of the site.

- 7.3 The proposal is very similar to the permitted development. The old chalets will be demolished, and 310 new caravans will be sited, increasing the number of units on site from the current provision of 290 units. The central complex building will remain on site as will several external facilities for guests. The following facilities will be provided;

- Central facilities complex with offices, reception, ballroom, restaurant bar, indoor pool, and hair/beauty salon
- A pub-restaurant
- Boating lake and playground
- Café
- Crazy Golf course
- Play Areas
- Car and coach parking

Proposed Access

- 7.4 The site will be served via the existing access from Havant Road and no alterations are proposed to the driveway itself, which is generally a minimum 4.8m wide allowing two-way vehicle flows. Internally, the site layout will be almost identical to the permitted site layout with minimum 3.7m wide shared surface drives maintaining low vehicle speeds, with passing places for vehicles.

Parking

- 7.5 Each caravan will be provided with a single car parking space. Additionally, car parking will be provided close to the central facilities for use by visitors while checking-in, and for staff use.

Cycle Parking

- 7.6 Each caravan will be provided with a 'Sheffield style' cycle parking loop to accommodate 2 cycles. Additionally, long stay cycle parking will be provided for staff use.

Refuse and Servicing

- 7.7 Refuse areas will be provided and collection procedures will remain the same.

- 7.8 Internally turning heads are provided allowing a large refuse vehicle; fire tenders and service vehicle to enter and exit the site in a forward gear.

Highway Impact

- 7.9 It has been demonstrated that an average of 4 additional trips per hour would be expected from the 18 additional units which would equate to around 0.2% additional traffic on the local highway, having an insignificant impact.
- 7.10 In summary, we conclude that the proposed development can be accommodated without detriment to vehicular flows and road safety on the surrounding highway network.

Appendix A

Proposed Site Layout

MILL RYTHE HOLIDAY VILLAGE

ARX

ARX is a modification of AustRoads94. It removes class 12, moves all other classes up by one, and inserts a cycle class as class 1.

- **Units:** Metric (m)
- **Car class:** 2
- **Unclassifiable vehicle class:** 13

Axles	Groups	Description	Class		Parameters	Dominant Vehicle	Aggregate
2	1 or 2	Very Short - Bicycle or Motorcycle	MC	1	$d(1) < 1.7\text{m} \ \& \ \text{axles} = 2$		1 (Light)
2	1 or 2	Short - Sedan, Wagon, 4WD, Utility, Light Van	SV	2	$d(1) \geq 1.7\text{m}, d(1) \leq 3.2\text{m} \ \& \ \text{axles} = 2$		
3, 4 or 5	3	Short Towing - Trailer, Caravan, Boat, etc.	SVT	3	$\text{groups} = 3, d(1) \geq 2.1\text{m}, d(1) \leq 3.2\text{m}, d(2) \geq 2.1\text{m} \ \& \ \text{axles} = 3, 4, 5$		
2	2	Two axle truck or Bus	TB2	4	$d(1) > 3.2\text{m} \ \& \ \text{axles} = 2$		2 (Medium)
3	2	Three axle truck or Bus	TB3	5	$\text{axles} = 3 \ \& \ \text{groups} = 2$		
>3	2	Four axle truck	T4	6	$\text{axles} > 3 \ \& \ \text{groups} = 2$		
3	3	Three axle articulated vehicle or Rigid vehicle and trailer	ART3	7	$d(1) > 3.2\text{m}, \text{axles} = 3 \ \& \ \text{groups} = 3$		3 (Heavy)
4	>2	Four axle articulated vehicle or Rigid vehicle and trailer	ART4	8	$d(2) < 2.1\text{m} \ \text{or} \ d(1) < 2.1\text{m} \ \text{or} \ d(1) > 3.2\text{m} \ \& \ \text{axles} = 4 \ \& \ \text{groups} > 2$		
5	>2	Five axle articulated vehicle or Rigid vehicle and trailer	ART5	9	$d(2) < 2.1\text{m} \ \text{or} \ d(1) < 2.1\text{m} \ \text{or} \ d(1) > 3.2\text{m} \ \& \ \text{axles} = 5 \ \& \ \text{groups} > 2$		
>=6	>2	Six (or more) axle articulated vehicle or Rigid vehicle and trailer	ART6	10	$\text{axles} = 6 \ \& \ \text{groups} > 2 \ \text{or} \ \text{axles} > 6 \ \& \ \text{groups} = 3$		
>6	4	B-Double or Heavy truck and trailer	BD	11	$\text{groups} = 4 \ \& \ \text{axles} > 6$		
>6	>=5	Double or triple road train or Heavy truck and two (or more) trailers	DRT	12	$\text{groups} \geq 5 \ \& \ \text{axles} > 6$		

Appendix E
