Dear Miss Donophy,

We have no objections to the actual building works to No7 Markway Close being undertaken

Our main concern is losing access to our garage, as we are given to understand that due to the extra accommodation being made extra parking spaces will be needed to be provided within the plans.

During the years we have lived at [REDACTED] we have always been able to use our garage via shared drive access as was laid out to us when purchasing the property 38 years ago.

We just need the reassurance that this can be still be accessible as parking is already restricted to properties in our area of the close.

yours sincerely,

[REDACTED]
