

Subject: Proposed tree Works on tpo order 1641 from southern arborists.
Attachments: From Skitch.png; From Skitch (004).png

Southern Arborists LTD

Address.

The old builders workshop
Love dean lane
PO89RN,

TPO REF 1641

Description.

T1 Quercus robur. Reduce lowest 2 limbs by 4 to 5M Using drop crotch technique as they are very over extended with a dander of potential shedding, Reduce canopy by 3 to 4m

T2 Fraxinus excelsior. Fell, Mature tree hosting some old reduction points that now look to be substantial rot pockets. As a species I have recommended for a fell over any major reduction work as I feel that this would create further issues with safety in the future. I believe that the neighbouring properties have expressed some concern over safety.

T3 Acer campestre. Fell. Heavily weighted towards the neighbouring property.

T4 Quercus robur, Fell . Major die back. Not a high chance of retrenchment, Dangerous.

Please note that all works are subject to our terms and conditions Of which are available on demand.
All of our work complies with BS3998:2010 tree works regulations.
All operatives are fully qualified and insured.

Kind regards,

Nathan Blatherwick
