2nd August 2024

Dear Ms D Sheath,

With reference to the proposed planning application for 2 Charlesworth Gardens, Waterloooville, PO7 6AU, please consider the following views.

Charlesworth Gardens is a small, residential cul-de-sac of bungalows and houses, already with plenty of cars and vans parked on pavements and the road.

More traffic to and from a business will cause additional problems with the customers needing to find spaces without obstructing residents' access. Workers and commercial vehicles - including large refuse lorries - also visit regularly.

There are already problems with traffic parking at the junction of .Charlesworth Gardens and Charlesworth Drive, There are also some working families with between two and four cars and motorbikes, and children playing in the road.

This is not a business area, but purely residential, and the increase of more noise, congestion and pollution should not be allowed.

With respect, we suggest that any viewing of the area should be conducted at various times during the week, weekend and evenings.

Yours sincerely,
