ELIOTS CARAVAN SITE.

Having lived next door to the above site for 36 years, and I can state that it has not been opened to the public in all of that time between the beginning of March and end of October at any time. My sitting room and bedrooms are only 2.5 metres from the boundary road, and the launchette, and nearest caravan 9 metres. Also there is a clubhouse on sight. Therefore we would wish that these dates of opening continue as they are, and not extended because of noise etc. And surely if this is allowed to go ahead it will make way for all surrounding sites to go the same way!

Yours Sincerely,
