Dear Sir,

REF: Proposed work on trees at 5 Tower St Ensworth

Thank you for your letter of 08 February 2016.

In addition to the proposed work on trees at 5 Tower St Ensworth, I am seeking a small reduction to one branch of the very large tree at 5 Tower St which has branches extending over the area in front of my garage at 5 Harbour Court. I only have one parking place outside my garage & at present it cannot be used because of droppings from wood pigeons in the branch of the tree extending over my drive.

A relatively small reduction in the branch extending over the parking

area of my drive would solve the problem. I should add that this branch is only seen by myself & neighbours in Harbour Court & my neighbours have no objections to what I propose.

I would be most grateful if this proposal could be considered in time for the proposed work to be included with the other proposed work at 5 Tower St.

Yours faithfully

HAVANT BOROUGH
