Dear Ms Pitney

With regard to the above proposal of a further extension of a Conservatory, to the already existing extension on our neighbours property 55 Seaview Rd Hayling Island. It is to be built on their existing patio. However we are concerned as the patio is already 2ft+ high. With the existing extension the conservatory will be very near to our fence and will end up $\frac{3}{4}$ way down our garden, giving us a view of a pvc clad wall. We have always tried to be good neighbours

but we are worried the sight
of this will impact on the value
of our property and also impact
on the enjoyment of our garden.

Thank you and look forward to
your thoughts on this matter.

yours Sincerely

Denise Pollan + Brian Pollan
