Dear Mr. Leal,

CONCERNING PLANNING APPLICATION 19/00808 "20" FIELD PLACE

When the last patch of public greenspace between our house and the town centre (ex Fairfield School Playing Field) was taken for development we were assured that none of the houses which now overlook our gardens would be allowed to convert their roof spaces into living spaces. Well, lo and behold, we now see the advent of the first, but I am sure not the last, planning application which would permit higher windows to further intrude into our privacy.

It would be dishonourable and unacceptable to grant this application to which ~~to~~ put it mildly we object! I am looking forward to contact with you about our position.

Yours sincerely,
